Vignesh V

AI Product Designer

Puducherry, India | +91 86080 11068 | vignesh.creativeux@gmail.com
LinkedIn | Behance

PROFESSIONAL SUMMARY

AI Product Designer with ~3 years of experience designing and building scalable SaaS products and AI-driven systems across edtech, healthcare, e-commerce, and enterprise platforms. My work sits at the intersection of product design, system thinking, and AI development. I focus on designing complete product ecosystems including user experience, workflows, automation logic, and intelligent features powered by LLMs and agent-based architectures. I approach products with a builder mindset, moving from idea to structured systems that are practical, scalable, and aligned with real-world usage.

SKILLS

UX and Product Design :
Product strategy, product thinking, User research, personas, Information architecture, User flows, task, flows, Wireframing, prototyping, Usability testing, Accessibility (WCAG basics), Design systems, component libraries, SaaS dashboard, platform design
Agentic AI & Voice Automation :
LLM Integration, Prompt Engineering, RAG, LangChain, Voice AI Agents, AI Orchestration, Real-Time Monitoring Systems, Alert & Escalation Workflows, Agent Memory Management, Telephony AI Integration
UI and Visual Design :
Responsive design, interaction design, component libraries, visual hierarchy, auto layout design
Design Tools :
Figma, Framer, Miro, Protopie, Webflow, Wix Studio, Adobe Photoshop, Adobe Illustrator
Technical Exposure :
Python, REST APIs, Node.js basics, AI workflow tools (n8n), Docker fundamentals, Kubernetes basics, AWS (EC2, S3, IAM, VPC, EKS), CI/CD pipelines, Jenkins, GitHub Actions
Collaboration :
Design-to-development handoff, requirement analysis, cross-functional communication, Stakeholder alignment

PROFESSIONAL EXPERIENCE

WIDEZO PRIVATE LIMITED **Puducherry**
User Experience Designer **June 2023 – January 2026**

Product & UX Design :

- Led end-to-end UX and UI design for web and mobile products across multiple business domains
- Conducted user research and defined product requirements, user flows, and information architecture

- Designed wireframes, high-fidelity interfaces, and interactive prototypes using Figma
- Built scalable design systems and reusable UI components ensuring consistency and accessibility
- Collaborated with engineering teams to align design solutions with technical implementation

Agentic AI Systems & Automation :

- Developed voice-based AI workflows for automated tracking and monitoring systems
- Designed conversational interaction flows for multi-step autonomous processes
- Implemented real-time monitoring, alert, and escalation mechanisms for critical events
- Integrated AI agent workflows with backend services for live data processing
- Supported secure internal AI deployment and continuous monitoring pipelines

Domains Supported

EdTech, Healthcare, E-commerce, Industrial SaaS, Telecom

PROJECTS

LEVAAL – AI-POWERED LMS PLATFORM

- Designed an end-to-end AI-powered LMS focused on career-ready learning and skill development
- Built structured learning systems replacing traditional course-based models
- Designed AI-driven roadmap logic for personalized learning paths
- Created role-based dashboards for students, mentors, and recruiters
- Designed mentorship workflows and skill tracking systems
- Developed AI-assisted portfolio and interview preparation flows

Impact :

- Improved onboarding clarity through guided learning paths
- Reduced user confusion in learning progression
- Created scalable product architecture for future expansion

CERTIFICATIONS

IBM SKILLSBUILD AI FUNDAMENTALS — **IBM**

AI UPSKILLING CERTIFICATE: TECHNICAL FOUNDATIONS — **Qualcomm**

PYTHON FOR AI: PROMPT ENGINEERING & LLM DEVELOPMENT — **Udemy**

ADVANCED UI/UX DESIGN MENTORSHIP PROGRAM — **De Mentee Academy, Puducherry**

GOOGLE UX DESIGN CERTIFICATE — **Coursera**

EDUCATION

MAILAM ENGINEERING COLLEGE — Mailam, Viluppuram, Tamil Nadu

Bachelor of Technology in Information Technology — **2019 – 2023**

LANGUAGES

- English
- Tamil
